

Advances in Genome Science.

Updates on RNA Sequencing methods using NGS

You are invited to discover new updates on RNA Sequencing methods using Next Generation Sequencing and hear from technology experts who can address your research questions.

The seminar will be held at CRG in the 4th floor – room 473.10.

Monday 10th of November 2014: 15.00 pm – 17.00 pm

Location: CRG, 4th floor (room 473.10)

Time	Session Detail
15.00	GRAPE, a pipeline for RNASeq in the ENCODE project <i>Sarah Djebali, Ph.D - Computational Biology of RNA Processing, CRG</i>
15.45	Advancements in Transcriptome Analysis and Gene Regulation <i>Jason Goode, Ph.D - Product Manager, Gene Expression & Regulation, Illumina</i>
16.30	Discussion and coffee break
