

INTERPROGRAM DATA SEMINARS

July 20th 2017, 16:00h

Marie Curie room

Chair: Verena Ruprecht

16:00 – 16:20h

Ionas Erb

Bioinformatics and Genomics Program

Comparative Bioinformatics Group

Ratios to the rescue: No need for normalization in gene expression analysis

16:20 – 16:40h

Veronica Llorens

Systems Biology Program

Design of Biological Systems Group

Beyond transcription factors: disentangling gene regulation in a minimal bacterium

16:40 – 17:00h

Andrea Battola

Cell & Developmental Biology Program

Coordination of Cytokinesis with Chromosome Segregation Group

The role of Boi1 and Boi2 in exocytosis and abscission

17:00 – 17:20h

Ilda Theka

Gene Regulation, Stem Cells & Cancer Program

Reprogramming and Regeneration Group

Investigating the role of new key players in somatic cell reprogramming and pluripotency

17:30 – 20:00h

Beach volley finals

20:30h

PRBB Summer Party

PRBB inner square
